TUESDAY, MARCH 18, 1854as a candidate for Assessor in the county of Franklin, at the next August election.

Shall we submit longer to the insolence of the Spaniard!

Is a question now being asked by almost every between us and Spain. It is well known, to all or foe. should be stopped, and that war should either be-comprise her family. declared against her, or that she should be placed beyond the pale of international good will.

A few days ago, in Congress, the Hon. Mr. Phillips offered a motion, that a list of these outrages, as far as could be ascertained, be furnished to Congress, so that members could act upon their, with all the facts before their eyes. The resul. of that motion, and the long list of Spain's sins against us, would astonish the most credulous. Some of the facts that were thus elicited are briefly these, and have been summed up by the New York Herald: 'Two years ago, and even later, our mails were regularly ransacked, and the principle was formally laid down and actually carried out by the Cuban authorities, that no resident of the Island should cend news to the United States or receive news from hence, save only that sort of news which the Captain General was pleased to sanction. All this we have borne. Sometime ago, two American vessels. the Susan Loud and the Georgiana, were seize by the Cuban authorities while lying off the Island of Carman, in Yucatan, on suspicion that they had been concerned in Lopez's first inva sion, and the captains and crew, Americans, werinhumanly treated by the Cubans. On the 16th August, 1851, the United States mail steamer Falcon was fired into by a Spanish war steame and forced to bring to: no amends were ever made. On the 28th April following, three American sailors were taken from the American brig Lucy Watts, lying at Sagna la Grande, Cuba, and thrown into the dungeons of the Moro Castle, on the pretence that they had been engaged in the slave trade, and this while the Captain General, his chief officers, and many of the principal citizens of the island, were openly deriving a reve nue from that traffic. In October of the same year, the Cuban authorities refused to allow the Crescent City to enter the port of Havana, be cause the purser, William Smith, was suspected of having conveyed news from the island to this country; and an interruption of our postal and commercial intercourse took place, which inflicted severe injury as well upon the steamers as upon the mercantile community. Some time afterwards (we cannot state the day with precision) several seamen belonging to the American bark Jasper were seized on the old plea that they had been concerned in the slave trade-the Captain General still fattening thereon-and imprisoned like those of the Lucy Watts. The Black Warrior's naval career had hardly commenced before she was fired upon by a Spauish war steamer, and forced to bring to, in order to satisfy the caprice and spite of the Cuban authorities."

It is a matter of wonderment with us how we have brooked such unparalelled insolence and effrontery so long. There is scarcely a war whose very sorting to the authorities. In giving, Island of Malia. ry, whose beginning has had half the reasons that these offer for a just and defensable appeal to that these offer for a just and defensable appeal to arms. Compare England's excuses for taking up arms against Napoleon; her pretexts for desola ting fudia and China; the palaver of Nicholas of the Black Warior, and to demand immediate datflag was over me date. I live in de Texas, and in the pulsue of the sum of the American was generatly suspected of naving the was generatly suspected of naving to do with the recent escape of slaves from thing to do with the recent escape of slaves from thing to do with the recent escape of slaves from thing to do with the recent escape of slaves from thing to do with the recent escape of slaves from the vicinity. Upon this evidence. Judge Grants arms against Napoleon; her pretexts for desola ting fudia and China; the palaver of Nicholas of the Black Warior, and to demand immediate datflag was over me date. I live in de Texas, with and the reasons to push the same amount that she would leave the State of the Black Warior, and to demand immediate datflag was over me date. I live in de Texas, and never return to it. In default of giving had insignificance-and, we repeat it, it is strange, very strange, that we have borne with such things so long. There is but one way to account for it. and that is upon the principle—a principle of which, pernaps, we have too large a share-of generosity. As these outrages have occurred. we have felt for their authors the feeling that the noble-minded and the strong usually feel for the weak -a feeling of pity mingled with our just anger, and sufficient to restrain our strong arm from inflicting a mortal blow. We have known that the characteristics of the Spaniard are arrogance, vain-glory, pomposity, and a presumption that asks too much of good nature, and which I earnest y hope may not arise, I suggest therefore we have rather laughed than frowned to Congress the propriety of adopting such proat her continued annoyances. But there is a point where the "mildest-mannered" man will cease to smile, and beyond which forbearance is no longer a virtue; and, as experience has prove en our kindness to Spain has been ill-expended, we doubt not it is time to with fraw it, and teach her that ingratitude pays badly in the long run, and that there is such a thing, sometimes, as forcing respect where it is due. Two or three good, stout ships-of-war before Havana, with President, Mr. Marcy, and Mr. Cushing entirely good, stout supps-of-war before travana, with approve of the proposition contained in the reso-their guus fouble-shotted, a few cannon under lution offered in the House by Mr. Dean. eneral Sanderson, an fficer in the war of 1812, cured of Consumption by the use of 'Wistar's Balsam of Wild Cherry.' Rush Creek township, Fairfield co... Feb. 25, 1851. Dear: Sir-As I consider that my life has been greatly

rolonged by my being cured of Consumption by the se of 'Dr. Wistar's Balsam of Wild Cherry.' I will state the symptoms of my, case, that others similar.y afflicted may be induce to try this invaluable remedy . I experienced great difficulty in breathing; had the hecic fever with violent flushes of heat and frequent cold chills, with severe pain in my side and breast, accompanied by a very bad cough; was very restless at nights, and had great night sweats, perspiring, I should say, at least two gallens a night, wetting the bed completely through I had not men able to work for years But I was much emaciated, and almost helpless when I ommenced using Wistar's Balsam of Wild Cherry. 1 ave used in all 13 bottles, and I am now free from all ose complaints, for my health is good.

I am now 55 years old, and have not taken any of the Balsam since 1846, because my health is so good as uut to require any medicine. But if I should have any ret to all who are afflicted with that terrible Dis- turn of my former symptoms. I shou'd use Wistar's We Balsain of Wild Cherry. W shington, Mar. 18.

The Union this morning announces that a special messenger, with instructions to our Minister at Madrid, will leave in the steamer Arctic today, demanding ample and immediate restoration for the outrage on the steamer Black Warrior at

OUR RELATIONS WITH CUBA. - The following which purports to be important, we copy from the last number of the Naw York Times:

We learn from good authority that orders from Washington, transmitted by telegraph, have been received at the Brooklyn may yard directing the steamer Princeton to be got ready for sea, and to be prepared to leave at a moment's notice. She was hauled out yesterday, and now lies off the battery. We have reason to believe that the government intends to sends her to Havana, for the purpose of demanding at the hand of the Cuban authorities prompt restoration of the Black Warrior and her cargo. We are informed that the manifest of the Empire City, which sailed yesterday for New Orleans, intending to touch at Havana, was made out precisely e that of the Black Warrior, and that the por officials at Havana, will have another opportuni officials at Havana, will have another opportunity in her case of summarily setting aside the practices and fisages that have hitherto obtained and of confiscating her cargo for a trifling deviation from some of their obsolete regulations. Our advices from Washington public and private, inadvices from Washington public and private, indicate a determination on the part of our governdent of the Star. He has, it is said, consented to resign his present dignified and responsible station, to enter upon the duties of the Chief Magisracy of the State. ment to put an end to the outrageous insults and annoyances to American interests which for years past have characterized our relations with Action upon this subject cannot be more prompt or vigorous than regard for the rights of our citizens requires, or than public sentiment will fully sanction. The present Spanish au therities in Cuba are evidently under the impress ion that Concha's disgrace at Midrid is due to his reputed friendship for the United States, and they are determined to avoid his fate by shunning his example. With them everything American is to be suspected. All our commercial relations are to be hampered and embarrassed by their jealous and vexatious hostility. Deeming themselves safe from punishment in the assumed necessity of an justing all differences at Madrid, and in the long delay that must attend negotiations upon the subject, they give full play to their animosity, and neglect no opportunity of injuring the commerce and insulting the citizens of the United

IN THE WRONG PEW AGAIN. - We believe the Paducah Democrat is the only democratic paper in the State that does not sustain the Bank vero of Gov. Powell. The Times, at Louisville, may sympathise with the Democrat, but it has not, as we have seen, made war upon the message. We think the editor of the Democrat did not proper ly canvase the subject before taking the torong side. He is generally right on important ques tions of public policy, and whether right or wrong, when he takes a stand he labors a siduously and with much earnestness. This makes it more important that he should always "look before he lea; s' He surely cannot see good reasons why more bank capital should be incorporated in Kentucky. And if not, then he must see that the executive did just what he should have done in vetoing the bills of the late session The fact, as stated by the editor, that the people have learned more fully the art of banking, may apply to those who control banks; but the masses he country-the industrial portion of the people-are now, and forever will remain, ignorant of the art-except that by that art they are ever and anon swindled and duped by banks. It we understand anything of the past history of banks and banking, it has presented ward conduct, in all respects advers to norality and common honesty. From the first bank (established in Holland we believe, , cown to the latest bank whose character has had time to develope fully, the word windle would have been an appropriate vignette for their issues.

It is certainly a far-fetched argument of the Democrat, to say that the message savors of a monopolizing spirit—that inasmuch as the State is a stockholder in the pr sent banks the Gover nor desires to keep down other banks in view of a larger dividend to the State. No such decuction can rationally be drawn from the language of the Executive .- Henderson Rep.

MYSTERIOUS AND HORRIBLE MURDER .- Our usually quiet city was thrown into great excitement, on Thursday morning, by ar port that the body of a murdered man had been found in a dark and lonesome hollow, about three miles south of Newport, and back of Mr. Digby's residence The report was too true. Wo are indebt d to Sheriff Stricker, who held the inquest, as the Coroner is ill, for the part culars below, and for a copy of the verdict of the jury,
It appears that a man named Mott, was engag-

d in burning brush near where the body wa found, on Wednesday evening last, and happen ed to see, in passing in passing a log against which a pile of brush was burning, the barrel of a fine silver mounted shot gun lying on ground, the fire having consumed nearly all the stock. Mott was much astonished to find a gun in such a place, and his curiosity was excited He proceeded to a spring near by, to get a drink, and on returning happened to east his eyes to a dark gulls in the hollow near where he found the gun, and there saw a boot sticking out of a heap of brush and earth. On examination the body of a man was discovered, with his body horribly eaten and mutil ted by hogs, and his skull broken in several places by clubs or rocks. From appearances the awful deed had been committed several months since, the lone! ness of the spot preventing discovery before supposition are-for no clue has, as yet, been had to the name, or his murderer-that he was hunting, with others, and quarreled and been killed, or that he had been met there by those who killand robbed him The latter supposition is strongth ened by the fact that Mr. Digby h ard shots one night in December last, in that direction from his house eccurring very late at night. He was surprised and went out of his house to a ridge near but saw nothing. Next say the tracks of two men were observed in the snow passing in a di rection from the hollow to the turnpike.- They were, most likely the murderers .- Newport Mes

The Post Office Department has made a contract with steamers David White and Alvin Adams to carry an eastern man between Louisville and Cincinnati. The boats are to leave the latter city after the arrival of the eastern mail, which is at 7 o'clock in the evening. The morning mail boats will continue as usual. By this new arrangement Louisville will receive the east. ern mail nearly 24 hours earlier. Heretofore the mail has been permitted to lie at Cincinnati from 7 o'clock in the evening till 11 and 12 o'clock

the following day.

The steamer Magnolia, on her last trip upward, sunk the wharf-boat at Owensboro. It contained about \$2,000 worth of merchandise. The owners have entered suit to recover damages.

LTA correspondent of the Detroit Free Press

I am glad to learn from a friend of Hon. Thos Corwin, that he is not so deeply interested in the Gardiner plunder as was generally sup osed.— \$80,000 he received was for his fees in 34 cases which he piosecuted before the Mexican claim commission. His fee in the Gardiner case was out \$12,000, one half of which went to Mr Richard Corwin, who was associated with him in the case. Mr Corwin has expressed his intention of colunteering his evidence before the committee quire into the Gardiner traud, unless he shall be mmoned as a witness.

It's well if this turns out to be true, for Corwin has sins enough to answer without this one. He was United States Senator, and agent for no ess, according to this account, that thirty-four claims, upon which the Senate would probably have to act. The story is bad enough even thus nonified - Low Democrat.

DR. JOHN BULL. SOMETHING

NEW AND VALUABLE.

The most powerful King on the face of the globe new The most powerful King on the face of the globe now reigns supreme in the American Republic. The power of the crowned heads of Europe sink into insignificance when compared to that of our American King.
European Kings employ the power vested in them to increase the riches of the rich and lordly, and to reduce to greater misery and degradation, the poor and dependent. Our American King goes forth with equal willingness to the lordly mansion and humble cabin, read alike to administer relief and to ofter health and happiness to the lofty and lowly, the rich and the poer.

DR. JOHN BULL'S GREAT AMERICAN KING Is the Tenth Wonder of the World, and the greatest blessing ever offered to afflicted humanity; to the suffering millions, the Doctor can say, relief is at your command. You have only to use this magical remedy. All those who still suffer, and will not accept the proffer Balm, deserve not the pity of their families. This wonderful medicine carring the brief period since its introduction, has carried texpiness to the hearts of thousands, and made life a charm to many who keretofore regarded it only as a psinful and miserable existence.

To the winds with all Liniments, Embrocations, Pain To the winds with all linimonts, Embrocations, Pain Killers and Pain Extractors, and let millions of glad tongues proclaim the merits of the great "American King of Pain," a preparation composed solely of vegeta-les and roots, produced by America's own rich and bounteous soil.

ounteous soil.

We would ask the Ladies, who are always competent We would ask the Ladies, who are always competent judges of what is and what is not a valuable family medicine, to do us a special favor by giving the King of Pain a single trial, and if satisfactory, exert their influence in its behalf, recommend it, speak well and often of it, and see that it is used by their afflicted neighbors. The Ladies are slways charitable, and when they induce their suffering friends to use this really valuable medicine, they will be doing an act of benevolence that they can well be preud of. This is a powerful and truly magical remedy for all extra controlled.

well be preud ef. This is a powerful and truly magical remedy for all externances, a samings, burns, &c., and for many internel adilictions it is a certain cura, yet it is perfectly harmless and incapable of producing the least injurious effects in the most delicate cases or the weakest constitution.

It is entirely useless to follow the old and worn-out system of publishing to the public thousands of certificates of wonders performed by this medicine. It costs but twenty-five cents to try it; and Dr. Bull stakes his well-carned reputation on the King of Pain doing all and more than he claims for it.

We would ask have you the Rheumatism or Gout; these are not pleasant companions, and we know that you would like to drive them away as soon as possible, then use

"BULL'S KING OF PAIN." Would you be cured almost immediately of Bowd Complaint, Dysentery, Summer Complaint, Cholera Mor-bus Cramp Cholic, Head Ache, Tooth or any other ache or pain, the remedy is simple and the cure certain, USE THE GREAT KING OF PAIN.

Would you have your Sores, Swellings, Cuts, Burns, Sealds, Bruises, or any other wounds healed, we repeat it, use the MAGICAL KING OF PAIN.

Would you be cured of Scald Head. Stiff Joints, Sore Throat, Neuralgia, Sore Breast, Lumbago, Tetter or Ring Norm, Salt Rheum, Bites of Poisonous Insects. Chapped lands, and all other Sores, either Dry or Running, we ay again and again, Your REMEDY is Dr. John Bull's "KING OF PAIN."

Would you be cured of King's Evil, Caneer, Tumors, Eruptions, or any disease of the Skin caused by impure blood, then use Dr. John Bull's Sarssparilla internally and the King of Pain externally, nothing can be more cartain than a speedy and effectual cure DR. JOHN BULL'S

AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious diseases — Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammatiens, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the eminent gentlemen to whom we are allowed to refer for these facts. are

PROF. VALENTINE MOTT, the distinguished Surgeon of New York City.

DOCT. A. A. HAYES, Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts.

IRAL MOORE, M. D., an eminent Surgeon and

IRA L. MOORE, M. D., an eminent Surgeon and

H. C. SOUTHWICK, Esq., one of the first merchants in New York City. chants in New York City.

C. A. Davis, M. D., Sup't and Surgeon of the United States Marine Hospital, at Chelsea, Mass.

Did space permit, we could give many hundred such names, from all parts where the Pills have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial.

These Pills the result of long investigation and

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of

science can anord. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained warm process. The reason is perfectly obtained warm process. tained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acriery medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formula by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be accurated to the state of the provinces of the pro ican Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known

Their life consists in their mystery. I have no The composition of my preparations is laid open The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their conviction of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

AYER'S

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruc-

CONSUMPTION.

This remedy has won for itself such notoriety from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antiote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. And not only in formidable attacks upon the lungs, but for the milder varieties

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best that it ever has been, and that the genuine article is sold by— CANNON & GAINES, Frankfort, Ky.

1Sir,—I suffered for a considerable period from a secretatack of Err sinelas, which at length settled in my eg, and resisted all medical treatment. My sufferings were very great, and I quite despaired of any permanent amendment, when I was alvis d to nav recourse to your Omment and Pris I did so without delay, and am happy to say the result was eminently successful, for they effected a radical cure of my leg and restured me to the eigenment of health. I shall ever speak with the utmost confidence of your medicines, and recommended them to others in the neighborhood similarly afflicted, who derived equal benefit.

Salt Rheum of 20 years Standing Cured.

Mr. John Thomasson, residing in the cuty of Richmond, was cured by three bottles of Carter's Spanish yiture, of Salt Rheum, which he had nearly 20 years, and which all the physicians of the city could not cure. Mr. Thompson is a well-known merchant in the city of Richmond, Va., and his cure is most remarkable.

Wm. A Matthews, of Richmond, Va., had a servant cured of Syphilis, in the worst form, by Carter's Spanish Mixure. He says he cheerfully recommends it, and considers it an invaluable medicine

Richard E. West, of Richmond was cured by of Scrofula, and what Physicians called confirmed Consumption, by three bottles of Carter's Spanish Mixure.

E-win Burton, Commissioner of the Revenue, says he has seen the root effects of Carter's Spanish dix ure in a number of Spohilic cases, and says it is a perfect cure for that horrible disease.
